HELP YOUR PRACTICE RUN MORE EFFICIENTLY WITH THE **CP 150** RESTING ECG

SIMPLE

- Intuitive touchscreen display for more accuracy.
- Lead quality display identifies connection problems before completing a test.

FAST

- Instant-On Feature helps eliminate typical start-up delays.
- Large display provides preview options for three-, six- or 12-lead ECGs.
- ECG Print Preview verifies test quality prior to printout.

94%

of **CP 150** ECG users surveyed say the touchscreen display and simple user interface have helped them improve their practice efficiency.[1]

"I find the **CP 150** [ECG] to be easy to use, reliable and safe for adult and pediatric patients."

– Brad Ronevich,
Richmond Heights Medical Center RN

SPIROMETRY OPTION

The **CP 150** ECG lets you perform two reimbursable diagnostic exams with one device. Help manage your COPD patients and maximize HEDIS scores with a spirometry solution that includes automatic interpretation and reversibility analysis. Plus, you can customize report formats and screen displays to meet your workflow needs.

- Perform FVC and pre- and post-BD testing with automatic interpretation and reversibility analysis.
- Customize report formats and screen displays to fit your needs and workflow.
- Ambient sensors can eliminate the need for the user to find and enter values for temperature, pressure and humidity.
- Manage patients with COPD to help you maximize HEDIS scores.
